

Clean air, water and soil and a sustainable living environment
We ensure a healthy environment, among other things by combating rats and preventing litter.

A house, but feasible and affordable for everyone.
Good living for all generations! That is why we build 1 in 3 homes for seniors and starters.

A safe route through 'our' Veldhoven.
We will provide more 30 km / car-free zones in neighborhoods and better public transport connections.

In a healthy economy, everyone should be able to use their talent
Money worries should not block the deployment of your talent. We encourage initiatives to that end!

Our services are human and approachable.
For entrepreneurs and residents.
Always someone who listens to you, even without an appointment.
